

Quieter.

The Airbus A380 sets new standards in quietness. Thanks to a highly efficient new wing design, the A380 climbs out of airports more quickly than any other high-capacity aircraft flying today, or planned for tomorrow. Which means that the A380 will hardly be heard outside most airport boundaries. Onboard, meanwhile, passengers fly in the quietest long-haul cabin in the industry. A380 cuts noise to unheard-of levels, inside and out. **Airbus A380. See the bigger picture.**
