Making the X3 papercraft is simple!

First print the model. Then cut, fold and glue it to have your very own X3!

Average time required: 5 hours.
Help

Stage 1
Cut the parts required in the step.

Stage 2
Fold the parts. Check mountain and valley foldings.

Stage 3
Glue the parts. The step is finished.

Use A4 Sheets of paper
Size: 21*29.7mm
Weight: 160 to 180 gsm/M2
Avoid too thin, fragile, and difficult to fold paper.

Metallic ruler
To be used to cut straight lines.

Brush
To apply glue on the paper.

Cutter, blade or scissors
Blade is preferred to make precise cuts.

White glue
Preferred because it does not damage the ink on the paper.

Paper knife or flat object
To fold the paper neatly.

Tweezers to handle small parts

Felt tip pens
to color the thickness of paper edges.

Glue a weight such as a wire, paperclip or a coin on the front edge.

Cutting mate.
