In 2017, Airbus provided more than 1.7 million training hours. Moreover, in 2017 more than 42,000 employees benefitted from the development, evaluation and transformation solutions proposed by the Airbus Leadership University. The purpose of the university is to strengthen the Company's approach to leadership, offering equivalent opportunities for all leaders to drive their development one step ahead, while accelerating the culture evolution and human transformation in Airbus.

Mobility of employees within or across Divisions is one of the main priorities for the overall benefit of the Company. In 2017, more than 11,000 employees changed jobs cross-divisionally and cross-country. For reference, Airbus has an attrition rate of 2.7% for its core entities and 4.0% when its subsidiaries are included.

In order to drive its digital transformation, Airbus aims to create a people-centric and trusting working environment. Launched at the end of 2015, a company transformation programme called PULSE has been designed to support the people aspects of the business transformation with the objective to increase empowerment, accountability and collaboration through digitally-powered capabilities, reworked HR policies and new ways of working.

In 2017, all Airbus employees were invited to select the Company's values. This inclusive consultation exercise included employees from 17 countries. Around 55,000 employees took part in this campaign and defined the Company's six core values: Integrity, "We are One/Team work!", Customer focus, Creativity, Respect and Reliability.

Airbus is committed to promote awareness through internal communication initiatives and awareness sessions and to train its employees worldwide on potential risks. Related risks will now be monitored via the Airbus ERM process throughout the entire Company. Finally, subject to regulatory approval, Airbus intends to extend its existing OpenLine to concerns related to human rights and fundamental freedom.

Airbus acknowledges its role in promoting responsible business practices worldwide. To that end Airbus now seeks to identify risks related to human rights violations in its ERM system. Risk evaluation will start in 2018. KPIs as part of Airbus' commitments related to the UK Modern Slavery Act will be identified in 2018. Human rights is also a topic addressed in the Airbus Supplier R&S Programme.

At Airbus recognition of excellence is key. In 2017, over 1,000 projects were submitted company-wide to participate in the Awards for Excellence scheme. The aim is to reward employees and teams for exceptional achievements, their ways of working and their contribution to improving business performance.

Airbus additionally launched its first *Dream Big Challenge*, inviting employees to propose new products, business and services ideas. Over 700 ideas were submitted in 2017. Following a summit held in November, the three most promising projects were selected to be developed further in incubators and during dedicated worldwide learning expeditions to Airbus' BizLabs.
