SAFE HARBOUR STATEMENT

DISCLAIMER

This presentation includes forward-looking statements. Words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “projects”, “may” and similar expressions are used to identify these forward-looking statements. Examples of forward-looking statements include statements made about strategy, ramp-up and delivery schedules, introduction of new products and services and market expectations, as well as statements regarding future performance and outlook.

By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements.

These factors include but are not limited to:

- Changes in general economic, political or market conditions, including the cyclical nature of some of Airbus’ businesses;
- Significant disruptions in air travel (including as a result of terrorist attacks);
- Currency exchange rate fluctuations, in particular between the Euro and the U.S. dollar;
- The successful execution of internal performance plans, including cost reduction and productivity efforts;
- Product performance risks, as well as programme development and management risks;
- Customer, supplier and subcontractor performance or contract negotiations, including financing issues;
- Competition and consolidation in the aerospace and defence industry;
- Significant collective bargaining labour disputes;
- The outcome of political and legal processes including the availability of government financing for certain programmes and the size of defence and space procurement budgets;
- Research and development costs in connection with new products;
- Legal, financial and governmental risks related to international transactions;
- Legal and investigatory proceedings and other economic, political and technological risks and uncertainties.

As a result, Airbus’ actual results may differ materially from the plans, goals and expectations set forth in such forward-looking statements.

For a discussion of factors that could cause future results to differ from such forward-looking statements, see the Airbus “Registration Document” dated 4 April 2017, including the Risk Factors section.

Any forward-looking statement contained in this presentation speaks as of the date of this presentation. Airbus undertakes no obligation to publicly revise or update any forward-looking statements in light of new information, future events or otherwise.

INTRODUCING IFRS 15 “REVENUE FROM CONTRACTS WITH CUSTOMERS”

- IFRS 15 effective from January 1\textsuperscript{st} 2018, now the standard for revenue recognition, measurement, and disclosure

- IFRS 15 will not impact cumulative profit or cash over the lifetime of a contract

- FY 2018 will be prepared under full application of IFRS 15, with FY 2017 restated

- Airbus has chosen the full retrospective method of implementation. Cumulative estimated catch-up adjustment to opening equity balance as of 1\textsuperscript{st} January 2017 of € -2.1 bn

- Revenues now recorded net of engine concessions for all Commercial Aircraft programmes, resulting in an estimated reduction in 2017 revenues and cost of sales of ~ € -7 bn, with no impact to EBIT

- 2018 Earnings guidance is issued under IFRS 15; the application of IFRS 15 is expected to bring an increase of ~ € 0.1 bn to 2018 EBIT Adjusted

The actual IFRS 15 impacts may differ from the estimates when adopting the standard as of 1\textsuperscript{st} January 2018
As the basis for its 2018 guidance, Airbus expects the world economy and air traffic to grow in line with prevailing independent forecasts, which assume no major disruptions.

Airbus 2018 earnings and FCF guidance is based on a constant perimeter, before M&A.

- Airbus expects to deliver around 800 commercial aircraft which depends on engine manufacturers meeting commitments.

**Based on around 800 deliveries:**

- Compared to 2017 EBIT Adjusted of €4,253m, Airbus expects, before M&A:
  - An increase in EBIT Adjusted of approximately 20%
  - IFRS15 is expected to further increase EBIT Adjusted by an estimated €0.1bn

- 2017 Free Cash Flow before M&A and Customer Financing was €2,949m.
  Free Cash Flow is expected to be at a similar level as 2017, before M&A and Customer Financing.

**2017 Dividend Proposal:**

- Airbus proposes a dividend for 2017 of €1.50 per share, +11% vs. FY’16
- Pay-out ratio at the upper end of the dividend policy.
INCREASING SHAREHOLDER RETURNS

**Actual cash out per year**

**2017 Dividend proposal** – To be paid in April 2018

Increased exceptionally to deliver sustained dividend growth per share

**Dividend policy since 2013 – 30% - 40% pay-out ratio**

Constant increase in DPS

* FCF before M&A and Customer Financing

**Total Shareholder Returns**

€ ~8.5 bn
