

The new journey into space

DEFENCE AND SPACE

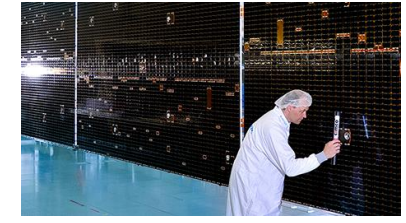

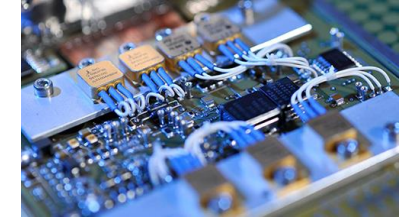

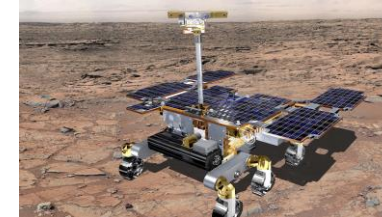

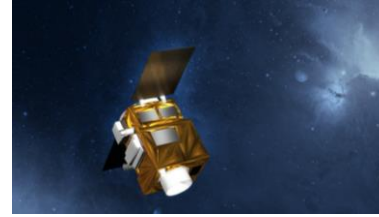

Nicolas Chamussy, Head of Space Systems
Media Day 9th June 2017

AIRBUS

We have a strong heritage in Space and are the only European company covering the whole space range.

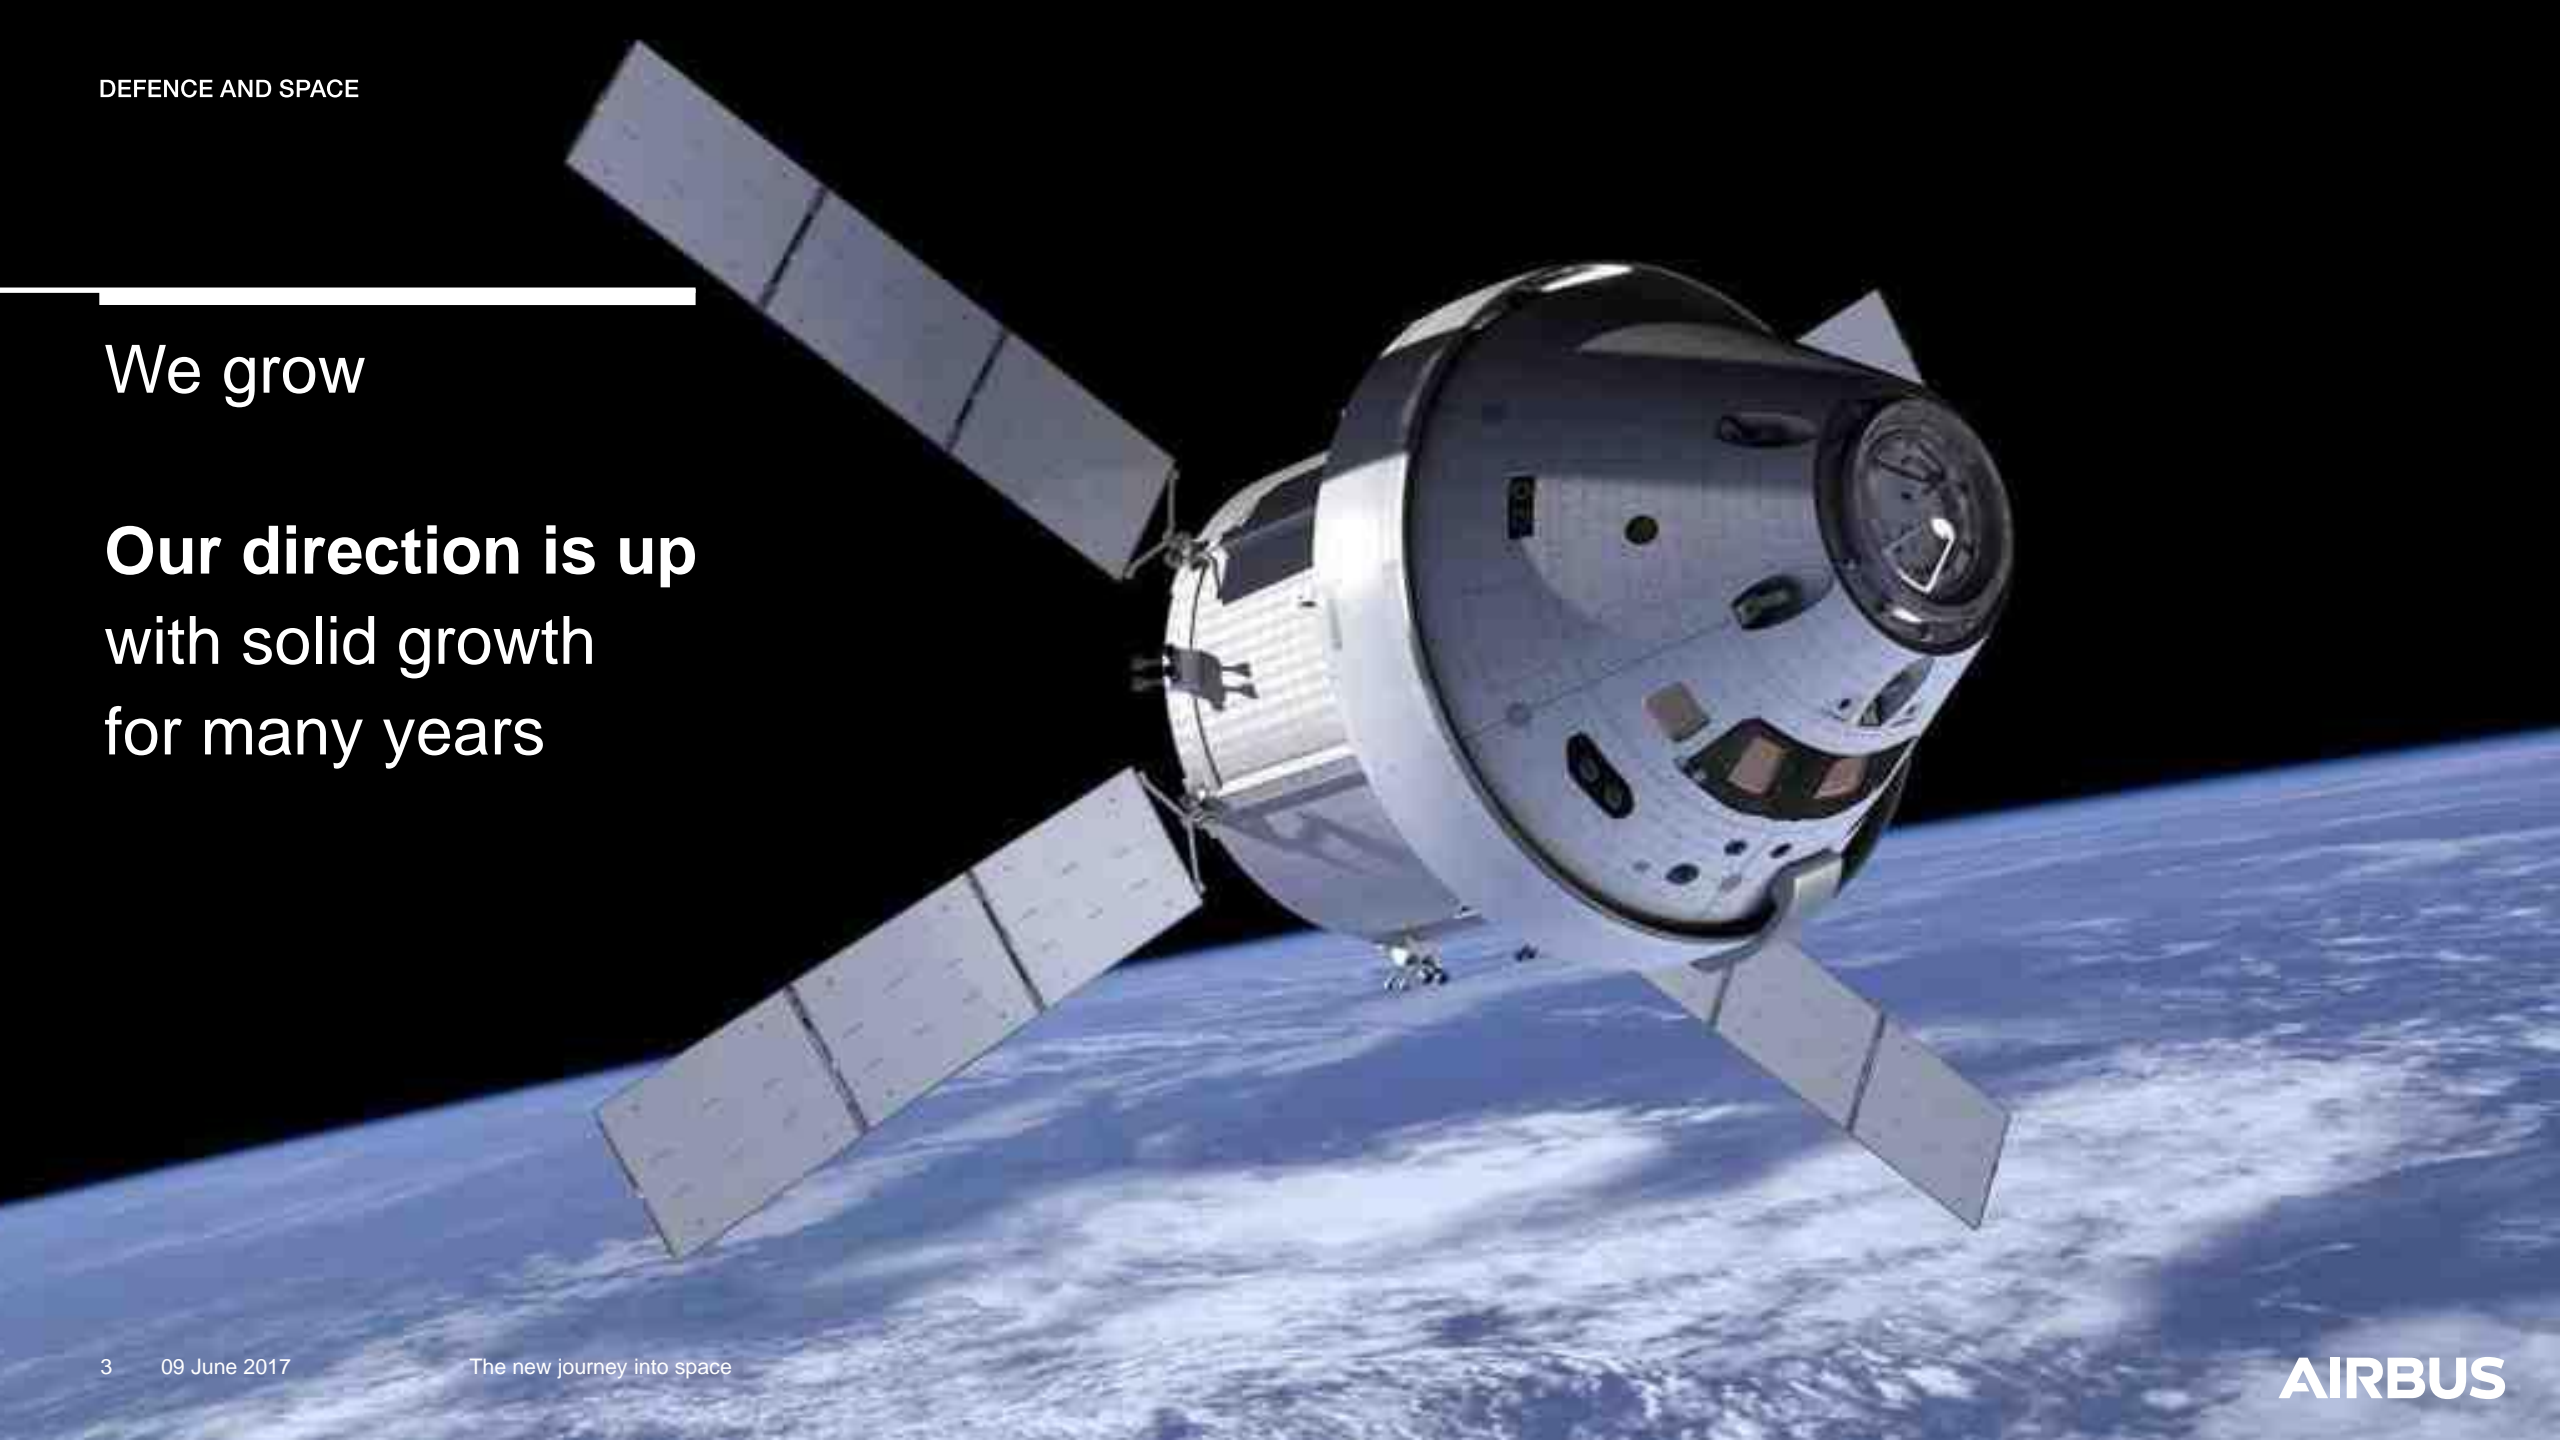

We are a leader in Space innovation, preparing the future of the space sector.

We grow, innovate, compete and build the future.

We grow

Our direction is up
with solid growth
for many years

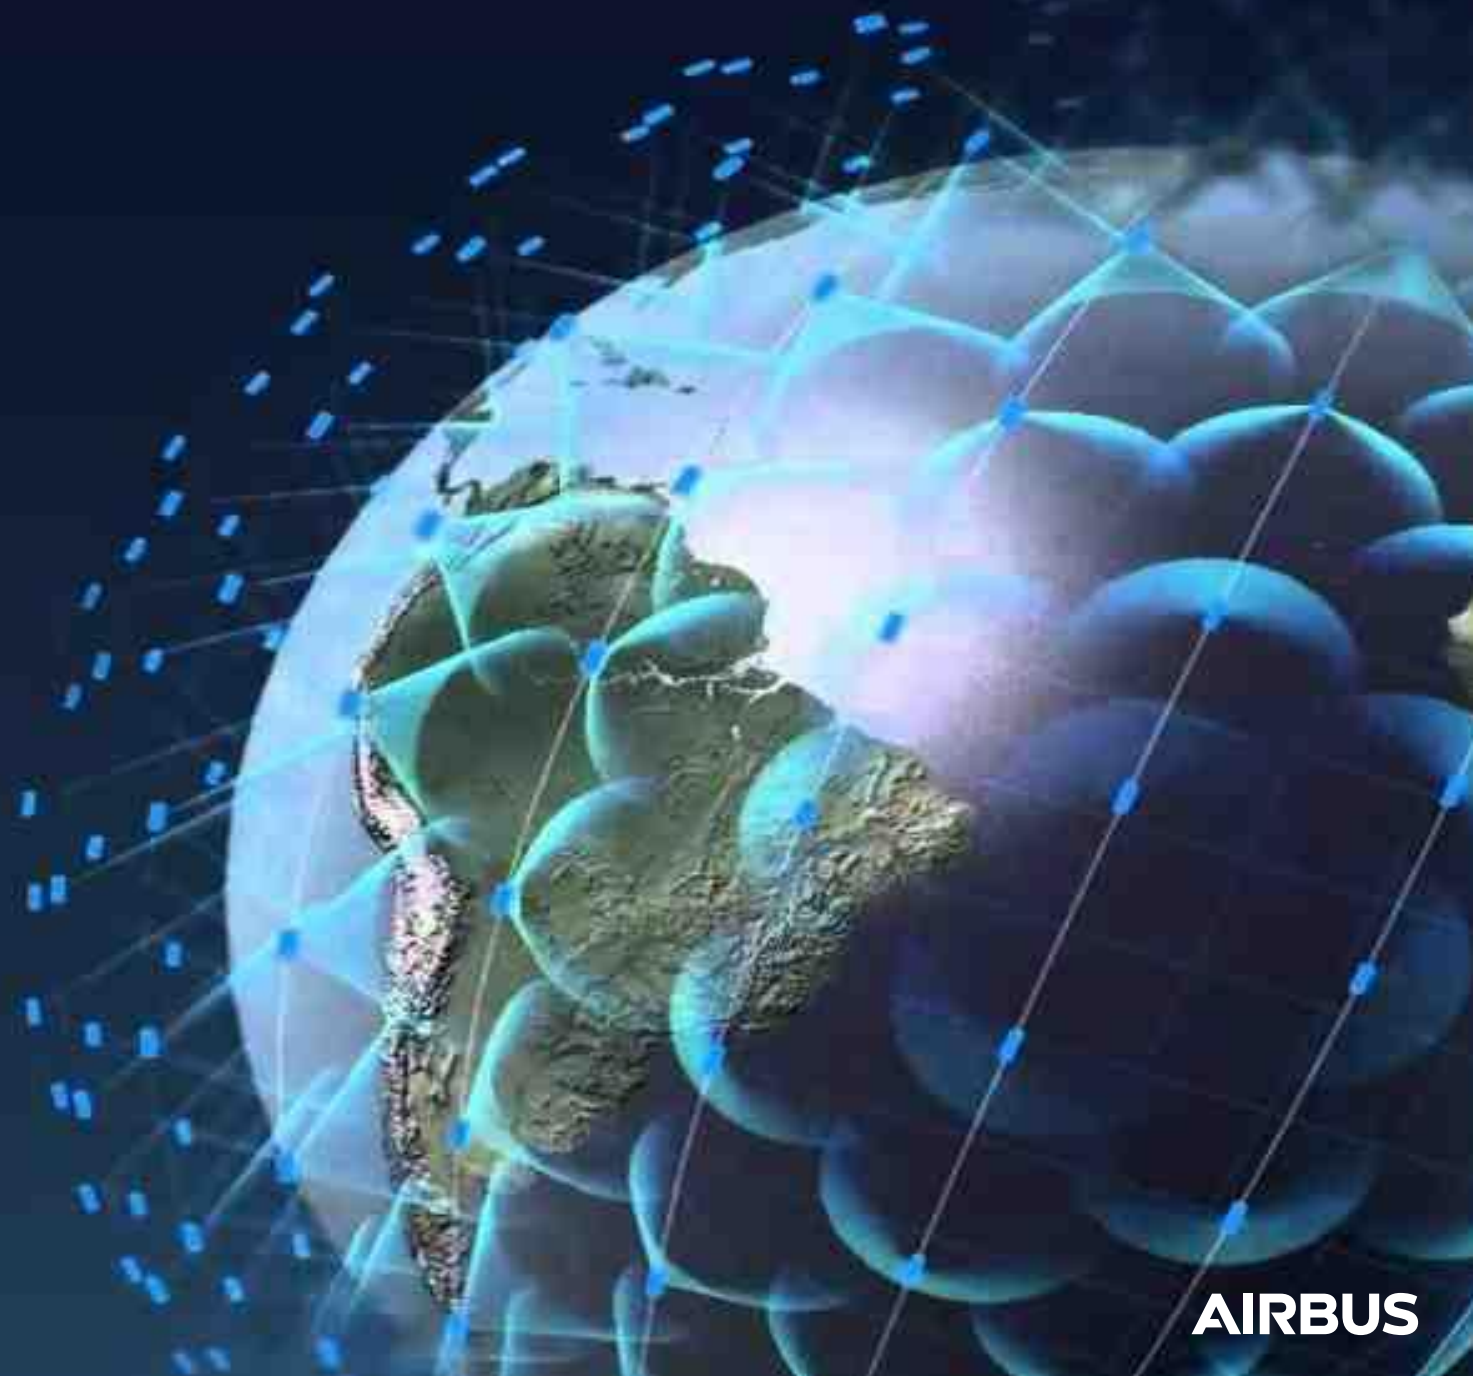

We innovate

**The largest-ever
satellite constellation**
for high-speed internet
around the globe

OneWeb

A revolution in satellite manufacturing is under way: With production rates of three to four satellites per day.

We compete

A technology leader
seeking to optimise
customer benefit

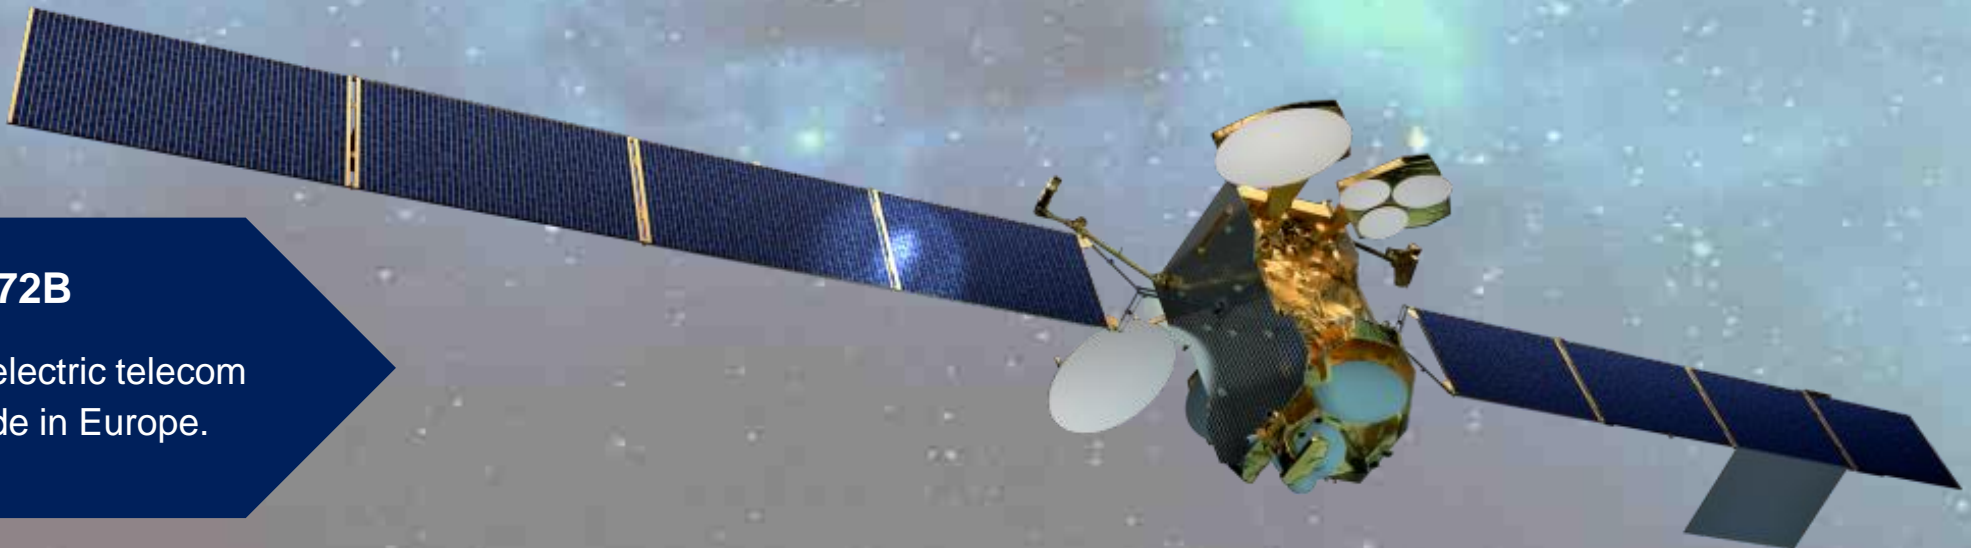

Ariane Group

A strategic joint venture
securing Europe's long-term
access to Space.

Eutelsat 172B

The first all-electric telecom
Satellite made in Europe.

We build the future

**A targeted development
of our resources**
lets us continuously
reach for the stars

**People, Processes,
Technologies, Innovation**

are the focus of our investment,
both short- and long-term

Many thanks for your attention!

Nicolas Chamussy
Head of Space Systems
