Japan Coast Guard bolsters fleet with additional H225 order New purchase brings JCG's Super Puma fleet to 13 units

Berlin, 25 April 2018 – Airbus Helicopters has secured an additional order of one H225 helicopter from the Japan Coast Guard (JCG), bringing JCG's H225 fleet to ten units. JCG currently operates three AS332s and five H225s, both from the Super Puma family. With this new order, the customer's Super Puma fleet will grow to 13 units by March 2021, becoming the largest Super Puma operator in Japan.

The new H225 will join the rest of the fleet in security enforcement, territorial coastal activities, as well as disaster relief missions in Japan.

"We are honoured by the renewed H225 order from our customer of over 25 years, as it bears testament to the quality of our long-standing partnership and our customer's full trust in Airbus' products and support. We are also delighted to see how our Super Puma helicopters continue to perform excellently in all the missions. With its inherent versatility and reliability, we know the H225 will continue to be a capable workhorse for the JCG's missions. The Airbus Helicopters team in Japan remains committed in our support to ensure continued availability of the fleet," said Olivier Tillier, Managing Director of Airbus Helicopters in Japan.

The 11-ton-category twin-turbine H225 is the latest member of Airbus Helicopters' Super Puma family which accommodates up to 19 passengers. Equipped with state-of-the-art electronic instruments and the renowned 4-axis autopilot system, the H225 offers outstanding endurance and fast cruise speed, and can be fitted with various equipment to suit any role.

In Japan alone, a total of 21 helicopters from the Super Puma family are currently flown by civil, parapublic operators and Japan's Ministry of Defense for various search and rescue missions, offshore operations, VIP, fire-fighting, and passenger and goods transportation.

About Airbus

Airbus is a global leader in aeronautics, space and related services. In 2017 it generated reported revenues of €67 billion – or €59 billion restated for IFRS 15 - and employed a workforce of around 129,000. Airbus offers the most comprehensive range of passenger airliners from 100 to more than 600 seats. Airbus is also a European leader providing tanker, combat, transport and mission aircraft, as well as one of the world's leading space companies. In helicopters, Airbus provides the most efficient civil and military rotorcraft solutions worldwide.
