Disclaimer

This presentation includes forward-looking statements. Words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “projects”, “may” and similar expressions are used to identify these forward-looking statements. Examples of forward-looking statements include statements made about strategy, ramp-up and delivery schedules, introduction of new products and services and market expectations, as well as statements regarding future performance and outlook. By their nature, forward-looking statements involve risk and uncertainty because they relate to future events and circumstances and there are many factors that could cause actual results and developments to differ materially from those expressed or implied by these forward-looking statements.

These factors include but are not limited to:
- Changes in general economic, political or market conditions, including the cyclical nature of some of EADS’ businesses;
- Significant disruptions in air travel (including as a result of terrorist attacks);
- Currency exchange rate fluctuations, in particular between the Euro and the U.S. dollar;
- The successful execution of internal performance plans, including cost reduction and productivity efforts;
- Product performance risks, as well as programme development and management risks;
- Customer, supplier and subcontractor performance or contract negotiations, including financing issues;
- Competition and consolidation in the aerospace and defence industry;
- Significant collective bargaining labour disputes;
- The outcome of political and legal processes, including the availability of government financing for certain programmes and the size of defence and space procurement budgets;
- Research and development costs in connection with new products;
- Legal, financial and governmental risks related to international transactions;
- Legal and investigatory proceedings and other economic, political and technological risks and uncertainties.

As a result, EADS’ actual results may differ materially from the plans, goals and expectations set forth in such forward-looking statements. For a discussion of factors that could cause future results to differ from such forward-looking statements, see EADS’ “Registration Document” dated 19 April 2011.

Any forward-looking statement contained in this presentation speaks as of the date of this presentation. EADS undertakes no obligation to publicly revise or update any forward-looking statements in light of new information, future events or otherwise.

Financial Highlights
Divisional Performance
Guidance
From resilience to growth

Further profit potential, foundation for future growth:
- Innovative product portfolio
- Progress on programme development:
  - Significant de-risking: A400M, A380
  - A350 XWB: Time schedule challenging

Poised to benefit from the commercial up-cycle:
- Regional balance, robust market opportunities
- Increase of production rates

Flexibility and fuel for growth:
- Strategic flexibility through high liquidity
- Strong Cash Flow
- Ability to finance our ambitions

Divisional highlights:
- **Airbus**: Successful introduction of NEO
- **Eurocopter**: Keeping the course and seeing the first signs of recovery for civil orders
- **Cassidian**: Transformation initiative underway as defence environment gets more global
- **Astrium**: Robust execution translates into good financial performance

2010 EADS revenues: € 45.8 bn  
2010 EADS EBIT*: € 1.2 bn

- Pre-goodwill impairment and exceptionals  
- ** Commercial order book based on list prices
Group Highlights
Financial Highlights
Divisional Performance

Guidance
2011 guidance is based on €:$ 1.35

**Airbus orders and deliveries:**
Airbus deliveries: 520 – 530 commercial aircraft; Book to bill > 1

**Revenues:**
EADS revenues above the 2010 level

**EBIT* before one-off:**
EADS expects 2011 EBIT* before one-off to remain stable compared to the 2010 level, at around €1.3bn. Increasing volume and price improvement at Airbus Commercial are roughly compensated by the deterioration of hedge rates, increasing R&D and less favourable mix of activities at Cassidian

**EBIT*/EPS:**
- Going forward, the reported EBIT* and EPS performance of EADS will be dependent on the Group’s ability to execute on the A400M, A380 and A350 XWB programmes, in line with the commitments made to its customers
- Reported EBIT* and EPS also depend on exchange rate fluctuations
- At € 1 = $ 1.35, EADS expects 2011 EPS to be above the 2010 level of € 0.68

**Free Cash Flow:**
Free Cash Flow is expected to be positive

**2012 EBIT* before one-off:**
Should materially improve, thanks to Airbus, with volume increase, better pricing and A380 improvement

* Pre-goodwill impairment and exceptionals
Conclusion
