Sabine Klauke

Sabine Klauke has been appointed Head of Engineering within Airbus Defence and Space and a member of the division’s Executive Committee, effective 1 July 2018.

Prior to this position, she served as Head of Programmes Customer Services: a responsibility that she had previously taken more specifically for the A330/A340 programmes since 2015.

Klauke joined Airbus in 2002, where she has developed her professional career by holding numerous management and executive positions linked to Manufacturing Engineering, Production, Product Development Programs, Development Processes and Change and Innovation Projects within the Airbus Commercial Aircraft division.

From 1998 to 2002 Sabine worked at DELMIA, a brand of the French software company Dassault Systèmes, where she carried the digital manufacturing software deployment and the implementation of consulting and services department with customers in the automotive and the aerospace industries.

A mother of one child, Sabine Klauke is a graduate in Mechanical Engineering from the University of Technology (TU) in Dresden and the École Nationale Supérieure d'Ingénieurs en Mécanique Énergétique (ENSI) de Valenciennes. She also holds a PhD from the TU of Dresden.
