Head of Stade Plant

Airbus Innovation Days 2016

Airbus in Stade

Airbus in Stade – more than 30 years of experience in composite manufacturing

Plant layout

Portfolio

	VTP	Wing	Fuselage
A320 / A330 		Flaps (A320) 	Pressure bulkhead (A330) 
A400M 		Wing cover 	
A380 		Flaps 	Pressure bulkhead 
A350 XWB 		Wing upper cover 	Fuselage shells 
Eurofighter 			

- Specialised on composite parts and technologies since 1983
- ~1800 employees deliver essential contributions to all Airbus programmes

Continuously inserting innovation into our production processes

State-of-the-art fibre placement machines increase speed & precision

Autoclave double loading:
-50% process time and reducing energy consumption

“NewFlowLine”: assembly processes like in automotive industry

Collaboration for innovation: world-leading composite eco-system

Looking forward to welcoming
you in Stade this afternoon!
