

Press Release

2018 price adjustment across Airbus' modern product range reflects continuous investment and customer value

Toulouse, 15th January 2018 – Airbus has increased the average list prices of its aircraft by two percent across the product line, effective from January 1st 2018.

John Leahy, Chief Operating Officer Customers, Airbus Commercial Aircraft said: “Our new 2018 pricing reflects Airbus' continuous investments into its aircraft programmes to maximise their value for our customers' satisfaction – with the winning combination of performance, operating economics and passenger experience.”

About Airbus

Airbus is a global leader in aeronautics, space and related services. In 2016 it generated revenues of €67 billion and employed a workforce of around 134,000. Airbus offers the most comprehensive range of passenger airliners from 100 to more than 600 seats and business aviation products. Airbus is also a European leader providing tanker, combat, transport and mission aircraft, as well as one of the world's leading space companies. In helicopters, Airbus provides the most efficient civil and military rotorcraft solutions worldwide.
