Foreword:

This table is given for information only and shall not be considered as a reference.
It is an help for establishing the link between Airbus specifications and Nadcap commodities mandated by Airbus.

Nadcap Commodities mandated by Airbus are:

Since 2004:
COMP = Composite Manufacturing (Parts) / NDT = Non Destructive Testing / HT = Heat Treating

Since 2005:
CP = Chemical Processing (including painting) / ETG = Electronics (Printed Boards, Circuit Card Assemblies) / MTL = Metallic Material Testing

Since 2009:
NMMT = Non Metallic Material Testing (Parts) / SE = Surface Enhancement / WLD = Welding

Since 2012:
NMMM = Non Metallic Material Manufacture (Raw Material) / NMMT = Non Metallic Material Testing (Raw Material)

Since 2016:
NM = Non Conventional Machining (EDM, LBM) / M&I = Measurement and Inspection (CMM, LT, AA) / MMM = Metallic Materials Manufacturing (Forgings)

Since 2017:
WLD = Welding (Additive Manufacturing)

Since 2019:
ASA = Aero Structures Assembly / FLU = Fluid Distribution Systems

Changes from previous version dated May 14, 2021 are highlighted in Yellow
