Chairman’s message

Dear Shareholders, dear Stakeholders,

2021 proved to be a year of gradual recovery. The COVID vaccine rollout that began in late 2020 continued across much of the globe, thawing the economy from its deep freeze. However, access to vaccines was unequal, with much of the developing world lagging behind while multiple COVID variants touched many people and created new challenges.

As the world’s major economies recuperated, so the aviation industry moved past the depths of its worst ever crisis. Passenger traffic recovered to a large extent compared to 2020, even though volatility remained due to changing travel restrictions, while cargo traffic was above pre-COVID levels.

Aside from the pandemic, global geopolitics were increasingly complex. We welcomed progress between the European Union and the United States towards resolving the long-running World Trade Organization dispute over refundable launch investment for aircraft. Yet rising political tensions in some regions signal the fragility of global peace. In these uncertain times, the Company’s defence and security products can play a crucial role in ensuring international safety and stability, as demonstrated with the involvement in humanitarian mission airlifts and rescues.

The continuing pandemic and geo-political tensions impacted Airbus both in its civil and defence activities, yet your Company achieved a much improved operational and financial performance in 2021, with strong positive contributions group-wide, from the commercial aircraft, helicopters and defence and space businesses. This was the result of the successful implementation of measures to contain costs and enhance competitiveness during the crisis by the Airbus teams.

Airbus’ first commercial priority in 2021 was to manage the aircraft backlog and deliveries and secure the A320 Family production ramp-up. In the Board we discussed with management the measures to ensure a robust industrial set-up and supply chain, equipped for the challenges to come. We approved the launch of an A350 freighter, responding to market demand by offering a more efficient and capable aircraft in a sector that’s vital for global trade.

In my first full year as Chairman, the Board turned its attention on how to address the future landscape and associated trends and demand for each of the Company’s four pillars of its strategic ambition. The Company is also preparing its workforce for these challenges while actively recruiting the specific competencies needed for the future. Attracting and retaining talented and motivated people is becoming increasingly demanding, thus we reviewed the HR strategy with management, preparing for key future competencies.

The Board receives regular updates on the Company’s sustainability priorities and decarbonisation road-map. And we discuss these intensely with management as we all share the conviction that Airbus must be leading the way in sustainable aerospace within its ecosystem. All of us are committed to further reducing the emissions of products and the industrial environmental footprint.

The Annual General Meeting for shareholders took place in April 2021, in a hybrid configuration with a small physical presence in Amsterdam to respect the COVID precautions. Nonetheless, shareholders were provided with a livestream link to follow the event remotely and delivered a high proxy vote. We thank you for your continued strong commitment.

The Audit Committee also had an active year: among its many tasks it was kept closely in the loop about changes to the financial outlook as the year progressed. The Remuneration, Nomination and Governance Committee was actively involved in succession planning and changes to the Executive Committee that took effect in mid-year and prepared the Board for its respective decisions.

In 2022, the Board mandates for Guillaume Faury, Catherine Guillouard and Claudia Nemat come up for renewal at the AGM, following the end of their three-year terms. In one key change, Carlos Tavares will step down to concentrate on his role as Chief Executive Officer of the automotive group Stellantis. I would like to take this opportunity to sincerely thank Carlos for his very valuable contributions to Airbus over the past six years. Subject to the AGM’s approval, he would be replaced as a non-executive director by Irene Rummelhoff, a member of the Corporate Executive Committee of an energy company, Equinor. Her extensive expertise in the energy sector, including in the field of energy transition and renewables, would help the Company to achieve its long-term sustainability goals.

The COVID crisis and the absolute priority to maintain liquidity and financial strength meant a dividend wasn’t paid for the past two years. We thank you for your understanding and continued commitment. To reflect the progress made in 2021, we will propose to this year’s AGM the payment of a gross dividend of € 1.50 per share.

With your support, dear shareholders and stakeholders, we will continue to pursue our mission and deliver our targeted results. Thank you again for your commitment to Airbus.

Yours sincerely,

René Obermann

<td>As assessed by the RNGC and approved by the Board, the CEO’s Individual Component achieved 140% out of 200%. It is based on his performance and behaviour mostly with respect to the way the Company reacted to the COVID-19 pandemic, and remained focused on its strategic agenda. The main factors* considered, in addition to the Top Company Objectives 2021, are in terms of outcomes: preparation of Airbus for post COVID-19; consolidation of Airbus market position in commercial aviation; securisation of the key strategic military programmes; environment, social and governance; and setting Airbus on the right trajectory for the future and in terms of behaviour: ethics &amp; compliance, leadership team development and personal developments.</td>

**LTIP**
- The CEO was granted 12,121 of Performance Shares.
- The CEO received both cash payments and vested shares in connection with the vesting of 2016 and 2017 LTIP awards:
  - Cash: €324,509
  - Shares: 2,202 vested shares (LTIP 2017 – May 2021)

**LTIP 2018 Performance Achievement: 50%**
The Covid-19 crisis leads to low performance for both Average EPS and Cumulative FCF. However the cumulative EBIT for the 3-year period is positive, leading, according to the policy, to the vesting of 50% of the performance Shares and Units.

* See section 4.4.3 of the Report of the Board of Directors 2021.

**REMUNERATION 2021**

At the occasion of the renewal of the mandate of the CEO and in application of the current remuneration policy as adopted by the Annual General Meeting held in 2020, the Board upon recommendation of the RNGC decided to increase by 10% the Total Direct Compensation* of the CEO applicable from 1 January 2022. This decision has been taken after due consideration of the outcome of the benchmark conducted by an independent third party and the successful leadership of the CEO over his first mandate. With this increase the CEO remuneration still remains below the median remuneration of the peer group as per the benchmark referred to above.

* Composition unchanged, as described on the previous page.

Seventh resolution

RENEWAL OF THE APPOINTMENT OF MR GUILLAUME FAURY AS EXECUTIVE MEMBER OF THE BOARD OF DIRECTORS FOR A TERM OF THREE YEARS

RESOLVED THAT the appointment of Mr Guillaume Faury as Executive Member of the Board of Directors be renewed for a term of three years, ending at the close of the AGM which shall be held in the year 2025.

Presentation of the seventh to tenth resolutions

As announced in the previous years, Board mandates are to be renewed every year by blocks of four, for a term of three years in order to ensure a smooth transition of the Board composition now and in the future. This is to avoid large block replacements of Directors at one single AGM, with the corresponding loss of experience and integration challenges.

The Board recommends that this AGM renews the appointment of Mr Guillaume Faury as Executive Member of the Board of Directors for a term of three years, ending at the close of the AGM which shall be held in the year 2025. Mr Faury serves as CEO of the Company since 2019 after having served as President of Airbus Commercial Aircraft since early 2018 and previously as President and CEO of Airbus Helicopters for five years. Before, between 1998 and 2008, he held various senior management...
roles at Airbus Helicopters (formerly Eurocopter) in engineering, programmes and flight testing. In 2009, Mr Faury joined Peugeot S.A., where he was a Member of the Managing Board and Executive Vice-President for research and development before returning in 2013 to Airbus Helicopters.

Since April 2021, Mr Faury has been a member of the Board of Directors of AXA SA and since July 2021, he has been the President of the Groupement des Industries Françaises de l’Aéronautique et du Spatial (GIFAS), the French aerospace industries association.

Mr Faury’s broad management skills and strong personal values proved to be instrumental in navigating the Company successfully through the hardest crisis in aviation history. With his vast industrial and aeronautical experience, extensive operational knowledge and forward looking mind-set, Mr Faury has the right competences and charisma to bring the Company forward with new technological and sustainability challenges and to help prepare Airbus’ workforce for the future, improving human capital and promoting diversity.

Finally, the Board recommends that this AGM appoints Ms Irene Rummelhoff as an independent Non-Executive Member of the Board of Directors, for a term of three years, ending at the close of the AGM which shall be held in the year 2025.

Ms Irene Rummelhoff has served as Executive Vice-President of ENGIE. In 2020, Ms Rummelhoff became a member of the Supervisory Board of KPN, a Dutch leading telecommunications and IT provider.

Based on her strong executive leadership experience and extensive financial background, Ms Guillouard provides key valuable insights notably on corporate governance, financial management, audit and risk management. Her skills and vast experience have enabled her to serve a crucial role as Chair of the Audit Committee since 2020, after having served as a member for four years, and as a member of the Ethics, Compliance & Sustainability Committee, which amongst others oversees the Company’s sustainability strategy and effective governance, as well as ensures that sustainability related topics are taken into account in the Company’s objectives and strategy.

In addition, the Board recommends that this AGM renews the appointment of Ms Claire Guillouard as an independent Non-Executive Member of the Board of Directors for a term of three years, ending at the close of the AGM which shall be held in the year 2025. Ms Nemati joined Deutsche Telekom AG in 2011 as member of the Board of Management after 17 years working for McKinsey & Company, where she was Co-leader of the global Technology Sector and led the unit for Europe, the Middle East and Africa. Ms Nemati headed the European business of Deutsche Telekom AG until the end of 2016. Since 2017, she has led the new Board area Technology & Innovation. Ms Nemati also chairs the Supervisory Board of Deutsche Telekom IT GmbH and is a member of the University Council of University of Cologne.

Her substantial experience in digital technologies brings to Airbus critical skills for its future transformation and innovation. Also, her extensive management experience makes her a valuable asset for Airbus and its Remuneration, Nomination and Governance Committee (RNGC) where she has served as member since 2018. Her strong involvement in the RNGC notably helps prepare Airbus’ workforce for the future, improving human capital and promoting diversity.

Finally, the Board recommends that this AGM renews the appointment of Mr Carlos Tavares whose mandate expires as of the close of this AGM and who does not seek a reappointment.

Since 2018, Ms Rummelhoff has served as Executive Vice-President of ENGIE. In 2020, Ms Rummelhoff became a member of the Board of Directors of AXA SA (international energy company based in Norway) and is a member of its Corporate Executive Committee. Between 2015 and 2018 she served as the Executive Vice-President for Equinor’s New Energy Solutions division, reporting to the CEO. In that context she was the architect of Equinor’s market-leading transition into the renewable energy field, ahead of all the other oil majors. She was tasked with forming Equinor’s subsidiary and driving the development of the Equinor’s strategy in renewable and alternative energy solutions, whereby she pushed for low carbon solutions such as carbon capture and storage and other related technologies, including hydrogen development.

Since 2014, Ms Rummelhoff has been also a Non-Executive Director of Norsk Hydro SA (aluminium and renewable energy producer) and has served as its Deputy Chair since 2016. Ms Rummelhoff previously held a number of management positions within international business development and exploration in Equinor (previously Statoil). In order to avoid overboarding, as Irene is a full time executive of Equinor, she will not seek reappointment as board member of Norsk Hydro following the expiration of her mandate at its next AGM in May 2022.

With her deep expertise in the energy sector, including in the field of energy transition, Ms Rummelhoff would bring to Airbus instrumental skills for its future transition to zero carbon emission and would help achieve the long-term sustainability goals of the Company. In addition, the Board believes that Ms Rummelhoff’s proven experience in leading major change programmes in a large scale, complex organisation involving significant investments and innovative technology would be of particular benefit to the Company.

The competencies of each one of these Board Members together with the high attendance rate at the Board and the Committees meetings (see Section 4.1.1 of the report of the Board of Directors) show a great involvement and dedication of our Directors to Airbus’ activities. The Board of Directors is therefore convinced that all Members being proposed for (re-)appointment will demonstrate commitment to their roles and perform their duties diligently and effectively. They are each chosen for their broad and relevant experience and international outlook as outlined on the previous pages.

Airbus guiding principle governing management appointments is that the best candidate should be appointed to the position (“best person for the job”). The Board believes that with these renewals and the new appointment, the Company increases the current proportion from 25% to 33% of female Directors on the Board and also contributes to greater effectiveness through more diversity (profile, background and gender). Airbus will continue to promote gender diversity on the Board and the Company’s Executive Committee.

Finally, the Company has adequate policies that require each Director to avoid any actual or apparent conflict of interest. Those policies require each Director to recuse him or herself from participating in any matter where he or she would have a personal conflict of interest, so that issue would be dealt with respecting the internal functioning of the Board of Directors. Please refer to the Board of Directors’ Internal Rules (Annex D – Article 8. Conflicts of interest) available on the Company’s website www.airbus.com (Who we are > Our Governance > Governance Framework and Documents) and the related Dutch Corporate Governance Code (Principle 2.7 Preventing conflicts of interest) with which the Company complies.
Eleventh resolution

DELEGATION TO THE BOARD OF DIRECTORS OF POWERS TO ISSUE SHARES, TO GRANT RIGHTS TO SUBSCRIBE FOR SHARES AND TO LIMIT OR EXCLUDE PREFERENTIAL SUBSCRIPTION RIGHTS OF EXISTING SHAREHOLDERS FOR THE PURPOSE OF EMPLOYEE SHARE OWNERSHIP PLANS AND SHARE-RELATED LONG-TERM INCENTIVE PLANS

RESOLVED THAT in accordance with the Company’s Articles of Association, the Board of Directors be and hereby is designated, subject to revocation by the General Meeting, to have powers to issue shares and to grant rights to subscribe for shares in the Company’s share capital for the purpose of Employee Share Ownership Plans and share-related Long-Term Incentive Plans (such as Performance Share plans), provided that such powers shall be limited to an aggregate of 0.14% of the Company’s authorised share capital from time to time and to limit or exclude preferential subscription rights, in both cases for a period expiring at the AGM to be held in 2023. Such powers include the granting of rights to subscribe for shares which can be exercised at such time as may be specified in or pursuant to such plans and the issue of shares to be paid up from the Company’s reserves. However, such powers shall not extend to issuing shares or granting rights to subscribe for shares if (i) there is no preferential subscription right (by virtue of Dutch law, or because it has been excluded by means of a resolution of the competent corporate body) and (ii) it concerns an aggregate issue price in excess of €500 million per share issuance.

Presentation of the eleventh resolution

We recommend that this AGM delegates to the Board of Directors the authorisation to issue shares and to grant rights to subscribe for shares of the Company up to an aggregate of 0.14% of the authorised share capital, i.e. 4 million shares equivalent to 0.51% of the Company’s issued share capital as at the date of convening the AGM, and to limit or exclude preferential subscription rights, for a period expiring at the AGM to be held in 2023, including for the purpose of Employee Share Ownership Plans (“ESOP”) and share-related Long-Term Incentive Plans such as Performance Share plans (“LTIP”), since the previous authorisation expires at the end of this AGM. The Company anticipates implementing a LTIP in 2022 and an ESOP in 2023, subject to approval by the Board of Directors.

Twelfth resolution

DELEGATION TO THE BOARD OF DIRECTORS OF POWERS TO ISSUE SHARES, TO GRANT RIGHTS TO SUBSCRIBE FOR SHARES AND TO LIMIT OR EXCLUDE PREFERENTIAL SUBSCRIPTION RIGHTS OF EXISTING SHAREHOLDERS FOR THE PURPOSE OF FUNDING (OR ANY OTHER CORPORATE PURPOSE) THE COMPANY AND ITS GROUP COMPANIES

RESOLVED THAT in accordance with the Company’s Articles of Association, the Board of Directors be and hereby is designated, subject to revocation by the General Meeting, to have powers to issue shares and to grant rights to subscribe for shares in the Company’s share capital for the purpose of funding (or any other corporate purpose including mergers or acquisitions) the Company and its Group companies, provided that such powers shall be limited to an aggregate of 0.3% of the Company’s authorised share capital from time to time and to limit or exclude preferential subscription rights, in both cases for a period expiring at the AGM to be held in 2023. Such powers include the issue of financial instruments, including but not limited to convertible bond, which instruments may grant the holders thereof rights to acquire shares in the capital of the Company, exercisable at such time as may be determined by the financial instrument, and the issue of shares to be paid up from the Company’s reserves. However, such powers shall not extend to issuing shares or granting rights to subscribe for shares if (i) there is no preferential subscription right (by virtue of Dutch law, or because it has been excluded by means of a resolution of the competent corporate body) and (ii) it concerns an aggregate issue price in excess of €500 million per share issuance.

Presentation of the Twelfth resolution

In addition to the authorisation provided for in the above mentioned eleventh resolution, we recommend that this AGM delegates the authorisation to the Board of Directors to issue shares and to grant rights to subscribe for shares of the Company up to an aggregate of 0.3% of the authorised share capital, i.e. 9 million shares equivalent to 1.14% of the Company’s issued share capital as at the date of convening the AGM for the purpose of funding (or any other corporate purpose including mergers or acquisitions) the Company and its group companies, and to limit or exclude preferential subscription rights, for a period expiring at the AGM to be held in 2023. This is in order to benefit from possible financial market opportunities and to provide flexibility to issue financial instruments, including but not limited to convertible bond, which instruments may grant the holders thereof rights to acquire shares in the capital of the Company. This may involve one or more issues, each within the €500 million threshold per share issuance stipulated by the Company’s Articles of Association.

Thirteenth resolution

RENEWAL OF THE AUTHORISATION FOR THE BOARD OF DIRECTORS TO REPURCHASE UP TO 10% OF THE COMPANY’S ISSUED SHARE CAPITAL

RESOLVED THAT the Board of Directors be and hereby is authorised, for a new period of 18 months from the date of this AGM, to repurchase shares (or depository receipts for shares) of the Company, by any means, including derivative products, on any stock exchange or otherwise, as long as, upon such repurchase, the Company will not hold more than 10% of the Company’s issued share capital, and at a price per share not less than the nominal value and not more than the higher of the price of the last independent trade and the highest current independent bid on the trading venues of the regulated market of the country in which the purchase is carried out. This authorisation supersedes and replaces the authorisation given by the AGM of 14 April 2021 in its twelfth resolution.

Presentation of the thirteenth resolution

We recommend that this AGM approves the renewal of the authorisation to the Board of Directors to repurchase up to 10% of the Company’s issued share capital, for a new 18-month period by any means, including derivative products, on any stock exchange or otherwise. This authorisation will supersede and replace the authorisation pursuant to the twelfth resolution granted by the AGM on 14 April 2021.

The share repurchase programmes to be implemented by the Company, if any, will be determined on a case-by-case basis by the Board of Directors. It is important to note that the Board of Directors will only decide whether or not to proceed with any share buyback and determine its timetable, amount, method and pricing based on the market conditions at such time, and on other capital allocation considerations. The Board of Directors would be free to decide if and how the acquisition of shares takes place, within the framework of applicable law, and shall ensure that general principles of equal treatment of shareholders shall be complied with. The Board of Directors will also decide whether the shares acquired shall be cancelled or used for any other purpose.

For further information on the Company’s share buyback programmes including their purposes, characteristics and status, please refer to the Company’s website at www.airbus.com (Investors > Share Price & Information).

Fourteenth resolution

CANCELLATION OF SHARES REPURCHASED BY THE COMPANY

RESOLVED THAT any or all of the shares held or repurchased by the Company be cancelled (whether or not in tranches) and both the Board of Directors and the Chief Executive Officer be and hereby are authorised, with powers of substitution, to implement this resolution (including the authorisation to establish the exact number of the relevant shares to be cancelled) in accordance with Dutch law.

Presentation of the fourteenth resolution

We recommend that this AGM approves the cancellation (whether or not in tranches) of any or all the shares held or repurchased by the Company and that both the Board of Directors and the Chief Executive Officer be authorised with powers of substitution, to implement the cancellation (including the authorisation to establish the exact number of the relevant shares to be cancelled) in accordance with Dutch law.
