

Saudi Arabia's flynas firms up 30 more A320neo Family aircraft

#Airbus @Flynas #ParisAirshow

Paris Airshow , 19 June 2023 – flynas, the Saudi air carrier and a leading low-cost airline in the Middle East, has firmed up an order with Airbus for 30 new A320neo Family aircraft, taking the airline's total order with Airbus to 120 A320neo aircraft, including 10 A321XLRs.

The agreement was signed at the Paris Airshow by Bandar Almohanna, flynas Chief Executive Officer & Managing Director and Christian Scherer, Airbus Chief Commercial Officer & Head of International, in the presence of H.E Saleh Al-Jasser Minister of Transport and Logistic Service, H.E. Abdulaziz Alduailj, President of General Authority of Civil Aviation in Saudi Arabia, and Ayed Aljeaid, Chairman of the Board of NAS Holding.

This significant announcement reaffirms flynas' position as a key player in the Kingdom's aviation industry and highlights the airline's ambitious plans to keep expanding its fleet with the world's most modern and fuel-efficient single aisle aircraft.

"As we continue to grow receiving several awards for excellence in operations and customer services and invest in our offering, we are delighted to confirm our latest order with Airbus," said Bander Almohanna, the Chief Executive Officer & Managing Director of flynas. "The A320neo Family brings unmatched benefits to our passengers, offering exceptional operational performance and environmental benefits, while helping us provide unique travel experiences at low-cost."

"Unbeatable economics, longer range capability and the most spacious single aisle cabin have made the A320neo Family the preferred choice of airlines worldwide. That includes in the low cost sector, where carriers operate in especially competitive environments. We look forward to working with flynas as it develops its future fleet and presence in the fast-growing Saudi market." said Christian Scherer, Airbus Chief Commercial Officer and Head of International.

flynas is an all Airbus operator and was the first airline in Saudi Arabia to acquire the A320neo. The carrier currently operates a fleet of 32 A320neos, 13 A320neos and four A330-300s. The addition of these new aircraft will support the airline's growth plans as it continues to expand its international routes and destinations network.

The A320neo Family incorporates the very latest technologies including new generation engines, Sharklets and aerodynamics, which together deliver at least 20 percent lower fuel burn and CO₂ emission savings. With more than 8,700 orders from 136 customers, the A320neo Family is the world's most popular aircraft.
