Le Bourget, 19 June 2019 – Dublin-based leasing company Accipiter Holdings has signed a Purchase Agreement to acquire 20 A320neo aircraft. The order, which was disclosed during the Paris Air Show by Paul Sheridan, Accipiter CEO and Isabelle Floret, Head of Leasing Markets, had been completed in March 2019, and was listed in the order books as undisclosed.

The new single-aisle aircraft will further expand the portfolio of Accipiter Holdings, which aims to be a leading player in the global leasing market and is wholly owned by Hong Kong's CK Asset Holdings Ltd. Together with Vermillion, its joint venture with Mitsubishi Corporation subsidiary MC Aviation Partners (MCAP), Accipiter manages a total portfolio of just under 150 owned and committed aircraft.

Engine selection will be made at a later date.

Featuring the widest single aisle cabin in the sky, the efficient A320neo Family incorporates the very latest technologies including new generation engines and Sharklets, which together deliver 20 percent fuel savings as well as a 50 percent noise reduction. With more than 6,500 orders received from over 100 customers, the A320neo Family has captured some 60 percent of the market.
