

Pablo Álvarez Fernández

Project Manager at Airbus and newly selected ESA astronaut
AIRBUS

Pablo holds a bachelor's degree in aeronautical engineering from the University of León (Universidad de León), Spain, and graduated with a master's degree in aerospace engineering from the Warsaw University of Technology (Politechnika Warszawska) in 2011.

Aeronautical engineer Pablo Álvarez Fernández' space journey started on the Mars Rover where he worked as a mechanical architect at Airbus Defence and Space in Stevenage. He then continued onto the world of aircraft as a Project Manager for Airbus Operations, where he was supporting different industrial projects across several Airbus plants.

On November 23rd 2022, he was selected to be part of the new generation of European Space Agency (ESA) astronauts, making his dream of going into space a reality.
